

Produkt Information

#3108

Product information:

Weapon Oil 967 is a highly penetrating, mobile liquid lubricant which combines three essential functions in a single product; cleaning, lubrication and preservation of hand held weapons, and weapon systems of both large and small caliber. Weapon oil 967 may also be used for many industrial applications.

Cleaning :

Weapon Oil 967 contains additives which, in addition to their ability to penetrate between metal surfaces, aid in the effective removal of built-up dirt, corrosion particles and firing residues which can be abrasive to both recoil and gas operated mechanisms.

Preservation:

Weapon Oil 967. After cleaning, a thin-film layer of preservative forms immediately on the weapon surfaces. The preservative displaces water and also provides a corrosion-resistant barrier against rust and dirt.

Lubrication:

Weapon Oil 967 is formulated to meet the complete requirements of cleaning, lubricating, and preserving both small and large caliber weapons in virtually all climate conditions from -69°C to +176°C. In addition, Weapon Oil 967 contains no ozone-depleting compounds. The product meets California Clean Air Act VOC requirements. Weapon Oil 967 is not only for ordnance use. It has proven highly effective in a wide variety of applications, including automotive, aviation, marine, general plant applications and the maintenance of industrial equipment.

Specifications:

Weapon Oil 967 meets all requirements of MILSPEC, MIL-L-63460 E Amendment 4

This product has been registered by NATO and NAMSA and used as stock items.

NAMSA

NATO STOCK NUMBER (NSN)

Nato Code : S-761

NSN: 9150-01-364-6442 bottle 120 ml

NSN: 9150-01-369-4228 bottle 1000ml

NSN: 9150-01-381-5558 Can 5 l.

Packaging:

20ml, 120ml, 1000ml
5 L plastic jerry cans

Shelf life:

4 years

Storage:

Do not store under 35 °F / 2°C and not above 122°F / 50°C Do not use below 35 °F / 2°C.

Water Danger Class: 0

ISO 9001:2015
